

For Uganda

Public Notice for VCS Project 5114 - Grouped Projects for Safe Water Program in Uganda

Evidence Action is implementing a project activity titled “Grouped Projects for Safe Water Program in Uganda” (VCS ID 5114).

It involves the installation of low greenhouse gas emitting water purification systems i.e., chlorine dispensers, to provide clean drinking water to low-income households/communities in Uganda.

Verified Carbon Units (VCUs) may be issued for the Greenhouse Gas emission reduction and removals for which Evidence Action will claim credits under VERRA. The ownership of these credits lies exclusively with Evidence Action.

The notice is published and it intends to inform you about the project to avoid any potential risk of double claiming of Scope 3 emissions under this project activity.

For Malawi
